

ST PETER'S
COLLEGE

BURSARY PROGRAMME

GIVE A CHANCE FOR A BRIGHTER FUTURE

St Peter's College has a Bursary Programme in effect, which enjoys strong commitment, with both resources and funding, from the top (Council and the Executive) through to the Parents' Association. This programme offers children a holistic experience, which ensures academic assistance while nurturing the student's personal wellbeing, through regular support, while creating the most suitable environment to encourage a bursary student to make optimum progress and reach his/her full potential.

OUR VISION

Our vision is to encompass a complete **developmental plan** around each individual bursary student which will empower them to achieve their best possible **results**, while being **holistically supported** through the process.

Ultimately, we aim to extend the programme to undergraduate tertiary education and interns. We wish to provide boarding facilities for bursary students and interns where required.

EXTENDING THE ADVANTAGES

We realise that students attending our school enjoy a quality educational environment with extensive facilities.

Our hope is to extend this advantage to children who do not have these opportunities.

PLATFORM FOR SUCCESS

St Peter's College's well-rounded bursary programme creates the most suitable environment that encourages individuals to achieve their best possible results and reach their full potential.

"In futurum fortiter... Go bravely into the future"
